

ARCADIA GLOBAL TELEVISION

ARCADIA FILM PREVIEW SERVICE

[BACK TO LOGIN](#)

Help Desk

In order to be able to use the ARCADIA FILM PREVIEW SERVICE and the 1,200+ films and 500+ hours of programming that it has to offer, certain basic technical requirements are necessary. Fortunately, most of today's computers are supplied with the necessary specification, but for those that are not, the following information is essential.

Our films are in full broadcast quality. However, to make the streaming preview on this website work with maximum efficiency, the quality has been reduced.

CONNECTION SPEED

Minimum 2 mbit per second (2 Mbps)

Films cannot load with slower connections
(Cable connections are usually faster than WLAN)

BROWSERS

Internet Explorer, Safari, Firefox, Opera

FLASH PLAYER

Free download available from www.adobe.com

SOUND CARD

A sound card is of course essential!

For any further technical assistance please contact info@arcadiafilm.com
